

Fan-Out Kits for Ribbon and Buffer Tube Fiber Optic Cable

Description

The Light Connection's Fan-out Kits are designed to provide a simple and easy breakout from standard buffer tubes or ribbon cables. Kits are pre-configured for 6 or 12 fiber applications with 25", 36", and 47" lengths of TLC Hytrel® tubing in the TIA/EIA color scheme. The black, glass reinforced ABS plastic unit snaps together and allows the ability to reopen for reentry if necessary. Each kit comes with adapters for ribbon cable and Buffer tubes.

Fan-Out Kit

SPECIFICATIONS
